Dear TRAM-EM partners,

Thank you for your interest in TRAM-EM The official European Tramdriver Championship.

Please note the following information when you register your team:

### **1. Requirements**

Every public transport service company from Europe can be part of the championships.

### **2. Participation**

Each transportation authority or city can register one team. One team consists of one male and one female driver. Please choose employees of the day-to-day operations, no driving instructors or manager.

Your team has to be accompanied by a third party, a coach or manager. This person should be able to understand English and have staff responsibility in your company. Background: We are planning a framework / a training program for manager with annually changing themes.

The winning of a championship does not automatically commit the champion to host the event in the coming year.

### **3. Costs for the participants**

Each company provides for its own travel costs for the drivers and the coach and the accommodation-costs for the coach. The hosting city bears every additional costs and the organization, e.g. two single rooms for two nights for your drivers.

#### **4. Application/selection procedure**

You can register anytime at [info@tramem.eu](mailto:info@tramem.eu).

Your registration does not automatically qualify your team for participation. The host company decides which teams they want to invite. TRAM-EM provides the network and gives recommendations.

Past and future hosting cities are premium partners. They, the titleholder and the host are automatically qualified for participation. All the other starting positions are determined by a quota system - depending on the size of the country and the amount of transport service authorities - and are selected by draw as well. The aim is to welcome as much different nations to the championship as possible.

The official invitation will send by the host city via email or post. Please send the attached questionnaire back to the host, when completed. Please attach two portrait photos (JPEG 1000x1500 pix) and a short CV of your drivers. These information are necessary for the medial support of the event.

#### **5. Schedule (there are variations according to host cities possible)**

The program is created in cooperation of TRAM-EM and the hosting company. The following procedures have been established during the last years:

Day 1: 10.00-16.00 welcome, presentation of the competition-disciplines, training runs, open house at the depot  
18.00-19.00 sightseeing tour by tram,  
19.00-23.00 drivers welcome party/ dinner

Day 2: 09:30- 17:00 competitions and public festival, awards ceremony and baton handover,  
Get together

new in 2016!

Day 3: 10:00 -14:00 workshops and get together, afterwards departure
